News From The President

Hello and welcome to the March issue of our Club Magazine.

We had a great wrap up to last year with Dave from Safety Dave coming to our December general meeting, even though the numbers of members were low, it allowed for a more intimate and casual time with our guest speaker who brought along a number of goodies for sale and for display on the night. One little packet of goodies that seemed to be very popular on the night was the small Snake Kit that Dave has available which is very suitable for Four Wheel Drivers to keep in the glove box of the car at all times. Safety Dave also has a variety of other medical kits available for first aid in the bush, in a neat and handy carry bag - along with fire extinguishers.

Dave also introduced to us on the night a neat package available to replace the tyre caps on your tyres for a tyre pressure monitoring system, and also spoke about rear vision and reverse cameras. If you ever get a chance to visit his shop/warehouse in Moorabbin, please do so and chat to the very friendly staff there. Safety Dave is very well set up for phone and postage orders too.

Contact information:

1 Edgecombe Court, Moorabbin VIC 3189

www.safetydave.com.au

03 9555 7585

We kicked off the new year with a very interesting topic with guest speaker Paul Tsiaras from Statewide 4X4. Paul spoke at length about being able to increase the GVM of our 4x4's to help with the extra weight that we burden our vehicles with, when we start to add all the extras with 'just need to have' so we can safely go off road and go to hard to get at places. Statewide 4x4 have upgrades available for many models of 4x4's, both older models and the newer models. Paul also explained the process that they need to go through with testing of components to their breaking point before they are able to certify a vehicle's new GVM. Also explained on the night is the difference between trying to upgrade a vehicle already registered, vrs upgrading a vehicle prior to initial registration at time of new vehicle purchase. It is really interesting to look into if you are in the position of looking at purchasing a new 4x4, to seek advice prior to purchase from Statewide 4x4 as to what kits are available and at what prices for the make and model you are looking at, and what a new GVM would be with their kits installed.

11 Slater Parade, Keilor East VIC 3033

www.statewide4x4.com.au

03 9484 7838

It was also very encouraging to see many new faces at the February meeting, with many people visiting us for the first time, and I think I managed to speak to most of them on the night. For those who are reading this magazine for the first time, and are interested in a four wheel drive club - please feel free to come and visit us at one of our general meetings at Noble Park and also come and introduce yourself to me during the coffee break or after the meeting. I'd love to meet you. Our club welcomes visitors to come on any of our trips, whether it is a day trip or a weekend camping trip - if you are unsure if your vehicle is suitable for any of the trips please speak to the trip leader (who we will introduce you to) or to any committee member available on the night. We even plan to run trips that are very suitable for beginners so that you will get to know us, and your vehicle - to give you 'start up' experience if you are new to four wheel driving off road. Personally, the best modification you can do to your vehicle before going off road, is to at least have All Terrain tyres (ATs) and not road tyres (highway tyres), as ATs are less likely to be damaged/punctured when we deflate tyres for extra 'grip' and a softer ride when we drive on gravel and rocky roads.

As a committee, we are committed to try to bring you interesting speakers to our general meetings as frequently as we can make suitable arrangements, but this month we will focus on our normal general meeting and allow plenty of time to discuss the upcoming trips and trips since Christmas. Upcoming guests we are planning for is specialists in chain saws, lubricants and whomever else we believe will be of a interest to us in the four wheel drive/camping community.

Looking forward to seeing you at our meetings, or on a trip.

Letter to the editor: RE: VASS on long rang fuel tanks

In light of the talk at the February meeting (I didn't attend but have been asked about this) from Paul at Statewide 4x4 regarding long rang fuel tanks and VASS certification, I have conducted some research into the matter.

Vicroads have produced a ***Guide to Modifications for Motor Vehicles (VSB 14)***.

It can be downloaded here: <https://www.vicroads.vic.gov.au/registration/vehicle-modifications-and-defects/vehicle-modifications/vass-approval-certificate>

This guide will help you understand what modifications are allowed and any modification performed within the guidelines of VSB 14 does not need specific approval.

Section 12.1.3 covers **Replacement or Additional fuel Tanks**

Paragraph 6 notes that:

“If a replacement tank of a 125% or larger capacity than the original uses the original mountings, their strength must be checked and shown to be adequate by a VASS Signatory”

I have fitted many Long Range Tanks over the years; some like a Hilux increase the capacity from around 70Ltrs to an extended capacity of 145Ltrs. The tanks I have used over the years are made by Brown Davis (Mentioned during the talk I believe). All Long Range Tanks I have seen in the 20+ years of 4WDing have additional mounting points which significantly increase the strength of the tanks and its fitting. I have yet to see a Long Range Tank of any brand that has 125% greater capacity than the original to use only the original factory mounting points.

From all my discussions and enquiries I think it would be safe to say that in Victoria at least, no VASS certification is required for a Long Range Tank.

Regards,

John Partridge

Association Report

David & Tony Attended the association meeting. Attending the association meeting cleared up a few things about the association and how it operates,

The association is made up of club Presidents and members that form a committee that employs 2 people.

There is a pilot program that one of the clubs running to help clean up the bush, Stage 1 is to identify the rubbish and where it is using a GPS to map coordinates. They are asking for 17 teams of 2 Vehicles, The association has asked for 2 Vehicles from each club so that they spread the load across as many clubs as possible. This will occur on 13-14 December the same weekend as our Christmas party so if anyone is interested contact David for further information.

This program is being monitored and has KPI's that will be made available through the association.

Trip reports

Stuart ran a trip up to Marysville with a plan to come down park road track where Tristan got stuck on. 10 vehicles attended the trip which was pretty rough and rocky and loads of fun putting our vehicles on some interesting angles. We finished up at the Buxton service station and had the famous Buxton burger which was huge and very nice no one left hungry. We all Had a wonderful day.

Christmas Breakup 13 Dec 2014 at Cranbourne botanical gardens 10am to 2pm

General business

It was agreed to place a A5 size add for safety Dave for 12 months.

Safety Dave attended the meeting and had a talk about safety equipment and the importance of having the right equipment and training for any emergency. Also being aware of and prepared for anything that might happen. It was an informative night with some great specials to be had.

Guest Speaker

Paul Tsiaras From State Wide 4x4

Gave an informative speech regarding GVM (Gross Vehicle Mass) and GCM (Gross Combined Mass) and how authorities are enforcing the rules with better trained police with high tech load cells looking for overloaded and incorrectly modified vehicles. Insurance companies are also clamping down on overweight vehicles that are in accidents and are weighing the vehicles, If they are overweight they don't pay the claim so it is important to know what your vehicle weighs fully loaded. Paul has also said that his workshop is available us to weight our vehicles by appointment at a cost \$15.00 individually or as a club he will arrange a day for our club to use his scales free at a future date to be confirmed.

For more information contact Paul Tsiaras at Statewide 4x4 03 9484 7838

Trip Report

9th February 2015

Sam's trip to Aberfeldy

Hi all, just letting you all know that I'm running a trip to Walhalla/Woods Point on February 6 to Feb 8. Leaving Friday night and meeting at Moe McDonalds around 7.30pm which will be last fuel stop. I did a similar trip same time last year. Sorry for short notice but had knee surgery on 16 January and wasn't sure how I'd cope but I'm on the mend and hanging to get out. Planning to stay the night in Walhalla and do some four wheel driving the next day and head up to Woods Point and spend the night there and do some four wheel driving on last day before heading home. I've sent an email to all members. If anyone interested let me know. Cheers Sam (A message on the face book site)

Leaving Friday night it was a challenge to find everyone. The traffic leaving Melbourne proved to be the most challenging part of the weekend. Everyone met at McDonalds Moe and arrived in camp about 11:30 pm, after a short sit around the fire and some refreshments all bedded down for the night.

The next day (Saturday) we did Army trk, Fultons crk tk, Number 4 Deep crk tk, Number 1 Deep crk tk, Phesent tk.

Sunday we did Willoughby Spur tk, Toomstar tk, Eaton tk, and Comet Spur tk.

The boys, Doing what boys do best

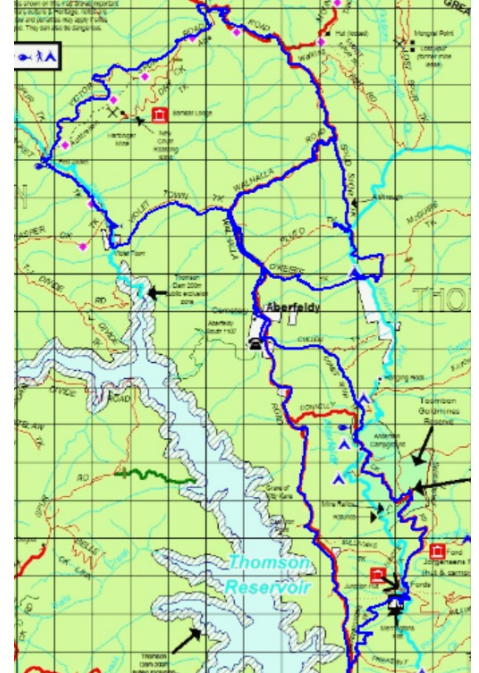

The comments in our house was the food was amazing. There was meat and meat and more meat. Ben setup his BBQ hot plate and just got it right with the correct amount of coals under it and left to get his meat and when he returned there was no room for his meat Sam and others had beaten him, and had their meat on the plate and to matters worse they were pouring garlic and other spices over the top (Sam cleaned the hot plate before Ben put his meat on). Tim, Stuarts son went along and he got to drive the land cruiser. A great weekend was had by all participants. Thanks Sam for organising the trip. Look out for more short notice trips by Sam, in Tim's words "I had an awesome time" and is now suggesting we take the Pajero as well as the Land cruiser.

Saturday 21 February 2015

Day trip to Aberfeldy

Attendees. Maree & Stuart
Ben & Claire with Jack and Charlie (Visitors)
Craig and Kevin
Lisa & Tony
Audrey and Ian (thank you tail end Charlie)

The day started at on the freeway with a big blue ford range giving us a toot and wave. We had a new visitor to the club, Ben and family had only purchased a Mitsubishi Triton 2 weeks ago and wanted to see what the Vic 4x4 club was all about. Stock standard. He wanted to see what the Triton can do? So Stuart found us some tracks

The Yarragon tea rooms and bakery is well recommended for its products and coffee's. Off we go. Aberfeldy crossing to do some clearing work for Ruddy. Stuart took the scenic route, down some hills and as the saying goes what goes down must come up the other side. What does that double black diamond mean?

A quick stop at Code flat to purchase some apples and honey, on to Aberfeldy crossing for lunch and some serious work. Its over 35oC but the volunteers worked hard. Including Tony in his big boy pants. (Tony is always in shorts, I think he even wore shorts in the middle of winter)

Just to say that Victoria has 4 seasons in one day, on the way out the black storm clouds rolled in and it poured. The road turned into a river and we slipped out to the dam wall. A magnificent rainbow over the valley .

Tony Lisa Craig and Kevin said goodbye they were off to play in the mud from the rain. A 4 o'clock track to conquer.

We headed out with Audrey, Ian, Ben and Claire with (Jack and Charlie) to the Local hotel for dinner. The Trafalgar Hotel not a bad stop.

Thanks to all who participated Great day
Maree and Stuart
