PRESIDENT'S REPORT

Hi everyone,

Welcome to another edition of *Free Wheeling* magazine.

As most of you would be aware, as at the time of publication, a State of Emergency has been declared across the State of Victoria. Our most recent advice is that the State of Emergency (which includes Stage 3 restrictions) will remain in place at least until 11 May 2020. It is possible that date may be further extended, depending upon the advice of the State's Chief Medical Officer and the State Premier.

We have necessarily had to suspend all club trips, general meetings and any other organised gatherings until such time the current restrictions on non-essential travel and organised group gatherings are eased. The Committee expects that any easing of current Stage 3 restrictions are likely to be gradual, measured and take effect over a period of several months.

In light of current restrictions, we will begin hosting virtual General Meetings. Details on how you can participate will be circulated by email to all current members. If you do not have an email account and would like to participate, please contact our Web Manager for details.

I am very pleased to advise that, since our last General Meeting, the Committee has followed through with members' resolutions for the following donations to be made:

- \$500 donation to Blaze Aid in support of bushfire relief efforts;
- \$500 donation to Mallacoota Pony Club (also in support of bushfire recovery efforts); and
- \$155 donation to Leukaemia Foundation (World's Greatest Shave), supporting our junior member, Samuel Bruinsma with his fundraising efforts.

It's wonderful to see that, despite the challenging times and circumstances that we find ourselves in, our members have the determination and compassion to support those people and communities who have been hit hardest.

PRESIDENT'S REPORT CONT'D

Finally, I want to acknowledge that some of you may be experiencing personal challenges in the face of the Coronavirus pandemic. I am very pleased to announce that for any member who may be finding it difficult to renew their annual Club membership by the usual 30 June due date, the Committee has resolved to allow affected members an extra 3 months (ie. until 30 September 2020) to complete their membership renewal for the upcoming financial year. Additionally, membership renewal fees will be reduced by \$20 (all membership types) for the year ahead where members renew by 30 September 2020. We hope that this announcement provides all members with the breathing space that they may need.

Take care, keep safe and remember that you can still keep in touch with each other through our Club Facebook page.

Steve Pitcher
President

THE WORLDS GREATEST SHAVE 2020

Leukaemia Foundation

The Leukaemia Foundation is the only national charity in Australia dedicated to blood cancer.

Your support makes a difference.

VFWDC has come together to support one of our young members, Samuel Bruinsma who has joined the fight against Leukaemia. Through the generous donations from our members, Samuel has been able to support a cause that has touched the lives of many people.

APRIL 2020

SHAVE FOR A CURE

The young lady is my cousin. She hopes to become a hair dresser, so I gave her the task of doing the tidy up after the whole church youth group had a go at cutting my hair off.

I would like to say a BIG Thankyou to everyone from the VFWDC who helped me support this worthy cause "The World's Greatest Shave" for the Leukaemia Foundation.

This event raises awareness and I am sure all your contributions will make a difference.

Thanks again for your support.
Samuel Bruinsma

VIRTUAL CAMPING

due to lock down restrictions

Maree & Stuart Bowker
Sally & Tristan Higgs
Des Wahll
Graham, Maree & Stephen Dickson,
Jeff & Mary Griffiths
Ann & Allan Crockett

11th April, 2020 by Maree Bowker

The purpose of the trip was to get together and share the general banter we are all good for around the campfire and when we are on the tracks. It was put up for a bit of fun.

The group participated in challenging times and weather conditions. There was one in the group who braved the elements and set his camping gear up, most of the more sensible members looked at the forecast for the Easter weekend and changed their plans to have the outdoor activities on the Friday as the weather was much kinder.

The technical skills of technology were challenged as a Zoom meeting was scheduled but moved to a Facebook messenger meeting due to technology failure. We may sort this out in the near future, or we may just go to somewhere with no reception and do the old fashion thing and talk to each other.

Stuart and Maree had a fire on the TV screen thanks to YouTube, amazing what junk you find on this channel or should I say how to waste a whole afternoon, just start with 4x4 and YouTube and there goes the whole afternoon.

A special mention goes to Stephen D for setting up in his front yard. There were many references as to what scary things lurk in his neighborhood of Cranbourne.

Sally and Tristian get a special mention for the Lego creation of a campfire, not sure what you put in those mugs? But great thought goes into this virtual trip.

Ben and Megan win for the freshest food just a bit worried that the chicken may not agree.

Is its name
Roast or Apricot?

A wonderful fire shot and in True Ben style its quite large.

Speaking of large fires Nicky and Brett were well on the way to getting the fire service to visit for their attempt at the largest fire.

David showed how to cook half a cow (well that is as big as the steaks look). I think a big thank you to Carolyn for her hunt and gather skills, our mouths are watering with the thought of your dinner. Thanks to everyone who participated and keep safe till we manage to get out on the tracks again.

Maree and Stuart Bowker

Woody's Easter at Home

Sunday Pork Roast—Woody Style!

Facebook ABC Challenge

Sharing memories April 2020

We started this as a challenge after Sally Higgs had a few sharing photo days and I decided to make it a challenge as everyone knows the 4x4 club is up for a challenge. I asked people to post original photos with a caption of the letter of the day.

On A, Allan and Anne showed us acceleration. We all looked at the mighty Prado with a sad thought of it gone, but now not forgotten.

By Maree Bowker

Caroline Jones showed us Astrophotography looking at the night sky. We all looked up to the sky, but the city lights get in the way and we dream of being out with the night sky. So, the posts go on. B well the obvious is bogged and we as 4x4s do this on a regular basis, boulders, bucks, beaches and thanks to Lisa B the Barbera's big blue bush basher. Getting into the thinking now, and the pictures roll on, John P demonstrated his skill at bogging on the beach and the beach races. Buddies themed well showing the depth of friendships.

C the obvious is Camping and we do this well, colourful sunset, croc tents at Cape York, all mentioned, there's a few Chambers pillar, Camping companions clearing the way with chainsaws just about sums up C.

D here dirt plays its part and who does not like a good play in the dirt or on desert dunes, deep ruts and dunnies all weigh into the discussion. Our letter usage is improving and so are the posts.

E = Elephant eating lunch, emus, echidna's, and eagles all captured by our great photo skills, electrical storms but the best posts for E is eating we do this a lot as a group, and we capture the moments.

F showed us fires we enjoyed and some we really didn't when the mighty Prado, went up in smoke, such a sad day, We are a sad bunch when we post fires in our back yards because we are not allowed to go camping any more.

G = goats goannas, gates, and galahs, everyone is getting into the spirit of the game and the Facebook page is going great guns, just could not help myself. Gin was mentioned and looking forward to a campfire happy hour which brings us to H and what we do best lend a helping hand. Lift a bonnet and the boys are there.

Helping pull each other out is captured and we remember with fond laughter when Tristan got stuck yet again, but its brightened our day and given us a good chuckle for today, Jeff and the mighty BT but its not going anywhere its got a flat tyre, that's a story to tell, the comments added help us all understand the humor of the club.

Moving right along we get to H and here is our happy campers photo bombing Joe and I am sure it was raining outside. Moments shared thanks for posting the pictures.

Horses, high country and hot coals, all bringing us back to our camping times, what's for dinner well there is some great looking feasts happening, I am glad that Facebook doesn't have smell as that would be too much to handle, Sorry Stuart the toasted cheese sandwich just didn't cut it.

Caroline J reminded us with her post of the fires, and I think when this is over, we need to get out to the small communities and take our empty eskies and do what we do best .

Show we are 4x4 middle buddies and eat and drink to support these smaller communities.

Thanks for being part of our Facebook challenge, Stuart and I have enjoyed your company in isolation.

TRIP CLASSIFICATIONS:

'A' Grade: Extensive use of 4 WD: Tracks may be difficult to negotiate - chains should be carried along with towing slings and anchor points, good winter tread pattern tyre are a must. Trip leader has the right to refuse a vehicle if above points are not met. Types of conditions likely to be met include: steep climbs and descents on all surfaces - rocky, muddy etc., mud & snow, deep river crossings and overgrown tracks.

Max. six vehicles.

'B' Grade: Virtually same conditions as 'A' Grade but track condition is more favourable: Good tyres are a must as well as necessary recovery gear.

Max. 10 Vehicles.

'C' Grade: Very limited use of 4 WD. These trips include car rallies etc. Type of tyre does not matter and recovery gear not essential.

No maximum number of vehicles

In all above cases vehicles should be in sound mechanical condition and carry the basic spare part requirements as listed in previous Newsletters.

The Committee would like to express the fact that if in the opinion of the trip leader a vehicle is not suitable for a trip, then that vehicle may be refused permission to partake.

Newsletter items to Peter Rowe by General Meetings at the latest.

NARBETHONG TRIP REPORT

On the 8th March we journeyed to Narbethong for the Annual Bog-hole weekend, having decided to arrive there on the Friday afternoon so as to secure a prime camp site. However, 75% of the campers had similar ideas; therefore good sites were at a premium. After erecting four tents (these late-comers are always looking for favours) it was almost dark and time to have tea. With some help from Mark we were able to polish off a pot full of Chinese food, and spent the rest of the evening lubricating the throat whilst sitting around the camp fire, and trying to keep parking spots for late arrivals from our Club.

Saturday morning turned out to be very hot, and while some members took off into the bush along the marked tracks, others preferred to stay in camp to greet new arrivals, swap yarns, prepare vehicles for competition or generally relax. In the afternoon the heats of the "Mongrel Pull" were held. The most excitement was provided by a nitrous oxide boosted Ford F100 which brought the crowd to life once the booster button was pushed. With a surge of power, the machine, plus Mongrel, charged up the hill, and but for some frantic waving from officials, may have continued on to Sydney. The finals of the "Mongrel Pull" were held on Saturday night, with Patrick Casey, Dave Hocking, Peter Rowe and Tom Brachna representing our Club. Although unsuccessful, it was good to see Club Members participating in the finals. Needless to say, the F100 took the honours in the Heavyweight Division.

Sunday morning provided us with another very hot day, and the knowledgeable ones could be seen placing their chairs in advantageous positions around the Bog-hole, quite early. The heats of the Bog-hole were run in the morning, but seemed to lack the lustre of other years. This appeared to be due to the slowness of the recovery units in extracting vehicles from the bog, and also because the Jeep Club did not provide the high class entries for which they are renowned. However, entries from country clubs, who were new to Narbethong this year, helped make up for this deficiency. The final was run in the afternoon, with our Club being represented by Dave Hocking and Dave Heard. The surprise packet for the final was provided by Bendigo 4 Wheel Drive Club, who took fastest time honours. The afternoon's events ended on a high note with most trophy winners being traditionally baptised in the Bog-hole.

John Smith

A NOTE FROM A NON-MEMBER

Time is a commodity everyone doesn't seem to have enough of, but if each member contributed once a year with such things as social nights, leading a trip, fund raising or even introducing a new person into the Club, your committee's job would be so much more enjoyable.

PRIDE AND COMMITMENT is a part of members duties, not just paying your annual dues each year. You can get fulfillment out of putting in to help YOUR Club.

YOU ONLY GET OUT OF SOMETHING IF YOU PUT SOMETHING IN
ANNON.

AUSTRALIA DAY LONG WEEKEND -

MOROKA REGION

Trip Leader - John Lake

Roll Call - Don and Thelma Montague
Alan and Mary Wade
The Pres - Peter Rowe
The Handley family
The Little Lakes
Myself and Andy Williams

We headed off on the Fri day night, with a few minor hold ups, arriving at Moroka around midnight to meet John and Co. and the Montagues, a welcomed fire and a boiling billy. A fire which was to be short lived as the temperature rose, and fire bans followed.

On Saturday, we travelled over the rough terrain of the track leading to the Sentinels. With brief interludes in our journey we took in the tremendous view at Mt. Wellington (carefully not offending the hoardes of bushwalkers there) and the remains of Miller Hut. A short walk at the end of the track entitled us to a most superb view looking over Lake Tali Karng and back towards Mt. Wellington and to the West for the Wellington River area. By this stage, the day had heated up and to watch the people swimming in Lake Taki Karng was almost too much to bear. After a bite of lunch and a beer or two we headed back to camp.

The Moroka road provided a new challenge - a massive gum that wasn't necessarily in the way but gave the guys great delight in removing. Joy and the kids, Andy and I headed back for that long awaited cool off in the Moroka River.

Sunday proved to be the test. Another hot day (and fire ban). John led his fearless party into Moroka Gorge. Without being able to carry enough water to quench our ever increasing thirsts, we battled steep inclines and descents, and Rowie's evernagging knee to reach Moroka Gorge and what a Gorge! There we sunbaked, ate lunch and cooled off in the natural pools of the river. Unfortunately our stay there had to end and we were greeted with the agonies of the hike back to camp; but with frequent rests and the encouraging thought of a cold can, we did survive.

On Sunday (slightly sore and stiff), we packed up early to head home, incorporating a bit of four wheeling in the process! John's new chainsaw got plenty more use in the first leg as we made a detour back to the Moroka Road. We then joined the Avon River track for some challenging driving, another welcomed cool off in the Avon and dinner at Huggets River crossing. When we thought it was all smooth sailing home the track gave us a last reminder, causing the Handley's Hi-Lux a spot of bother.

We reached Heyfield by nightfall, tired and wanting to get home, when my Suzuki decided to have a few carby problems. This was soon rectified by the excellent team of mechanics on hand as we reached home by midnight.

Thanks to John Lake for an excellent all round weekend and all the participants who made it most enjoyable.

with nothing.

EASTER TRIP 1985

Venue: Tobacco Flat - Howqua Valley

Trip Leader: Pat Casey

Scribe: Gus

Roll call: Pat, Anne, Damien and Martin Casey
Trevor, Helen, Christopher and Mark Nelson
Brian, Cathy, Lindsay and Christine Tuck
Kim and Anna Ferrier
Dave Hocking and Dennis Merlo
John Nolan and Brian Olsen
Dave Heard and Peter Casey
John Reid
Terry Baker
Gus, Carol and Aiden Pearl

Friday mid-morning saw the body of troops assemble in the car-park at the Mansfield pub. Le Mans style ready to be off. I arrived last (and late), the whistle was blown, a puff of black soot and off we went, in convoy through Merrijig, the Howqua track, Sheepyard and Frys. After some skillful direction around (or through in some cases) boggy patches by Pat, we arrived at Tobacco without incident about 12.00.

Terry coming up from Sale travelled through Jamieson up to Mansfield hoping to catch us. We were pretty slick. They arrived at Tobacco about 1.00 p.m. Dave and Kim came up through Warburton, Big River, Jamieson and Steiners Road arriving at Tobacco about 2.00 p.m. Camp was set up and quick arvo trip planned - an assault on the lick....hole track. After some scratching and track clearing the team stood aside to watch Dave do his thing, again, again and again. After parking the blue beastie against a tree (with no damage) the carpenter in Dave came to the fore. He retired defeated but not disgraced back to Tobacco to tackle the "Hill".

After a wood run, fires were lit, meals cooked and eaten. A pleasant night promised the end of a good day. A night run was talked about but, Bulmer, Carlton and Co. seemed to finish that idea. Dave and Terry Baker being more "Compos" than the rest of us decided to go fishin'. No matter how far up the river they drove they didn't get a bite.

Saturday dawned slowly and dull. The weather wasn't brilliant either. We organised and packed for a day to the Bluff, Louicks, King Billy 1 & 2, back down a new track (parallel to Hughes Track) to Brocks Road and back to Tobacco.

Since my last trip to the Bluff, considerable track work has taken place. Such that V.W.'s were up the top. Bluff Hut is now two storey and would sleep perhaps 25 bods. Louicks has a new verandah. Unfortunately it drizzled at Eight Mile Gap, rained at The Bluff, poured at Louicks and eased as we came down from King Billy. A real pity for those that haven't been there before. Another good night around the bonnie. Plenty of fortitude and the decision of a lazy Sunday. Somewhere about here a raffle was held and I won this honour. (It's a great system).

Easter Trip 1985 cont'd

Pat, brother Peter, John, Brian, Terry, Trevor, me and families decided to visit Mitchell's. We set off about "Half Past", travelled through 'Wares' to Steiner Road, out to the Slate Mine and down to Mitchell's. Had a look at the homestead and were surprised at how derelict it was looking. The Tourist Trade is taking its toll. We went back to the South end of the valley, had lunch and walked down the Gorge, and gorgeous it was. Brian O. thought he would like a closer look at the creek, up to his arm pits, Tricky things, these holes in the creek bed. Back up to the Slate Mine. A few samples(now I've got to build that path) and back to Tobacco.

Now for the event of the weekend, Out to get wood in Michael's Rangie and trailer (he's the owner of the place). Parked on the bank of Lickhole Creek is a 245 Volvo S/Wagon. Hot and tired from it's run down from Steiner's Road and wondering how to get out. After calming the panicked occupants, cooling the brakes and installing Pat as Navigator and the passengers in the Rangie, off we went to Fry's. Well the Volvo took all in its stride, didn't put a foot wrong and got there without any evident damage. Dad was very relieved, Mum and the kids couldn't stop talking about "how silly we are" (right) "how nice the bush is" (right), "how nice the Rangie is" (right), "How silly we are" (right), etc. etc. (I wonder if Henley's got a Volvo trade-in on a Rangie Tuesday?).

sunday also saw Dave and Terry leave for work, muttering about 3 Chain Track. Another bonfire saw us off to bed warm, mellow and in good spirits. Although John did have trouble sitting on a pottie chair (fell through) the ground, (fell off) and some-one moved the river bank (fell down). Fortunately the tide was out (possibly still in Dave and Terry's trucks).

Monday saw most go home to work. You could then see the Teachers, Public Servants and self employed amongst us.

Pat, Peter, Terry and I took a trip back to the Bluff. This time in sunlight, Pikes Flat, up Cornhill to Wooltbutt Gap, in rain, over the clear hills, in sunshine (aptly) down to the Circuit Road, then to Merrimbah - Sawmill settlement down Dougherty Track, a quick look at the gravel pit (oop's) back to Sheepyard and Tobacco. Another bonnie, a much reduced circle, a few quiet Staminades and off to bed.

Tuesday - Home time. Terry, Deb and Melissa back to Steiner's Road, Jamieson and home. Pat, Anne and the boys, Peter, Carol Aiden and I left through Frys, the Howqua Track and home.

Michael and Lynne Schmidt volunteered through Pat to allow us to visit their little piece of heaven. As hosts they opened their door to us, guided us around and proved to be good sports. To you all we must say Thank You (Yes, I would like to go back again).

Thanks Pat. We 'ad a good weekend".

Gus.

TRIP REPORT.

OTWAY F.W.D.C. NAVIGATION TRIAL.

V.F.W.D.C. Members Present: Ross & Justin Lyster, Dave Hocking & John Molin, Gerry Lavery & Peter Casey, David Heard & Pat Casey.

Upon arrival at the the start on Saturday morning, I suddenly realized I had forgotten something. A quick run down the check list; Vehicle (4X4) Check. Navigator, Check. Maps, Check. Fuel, Check. Engel, Check. Caravan, OH NO ! They must have thought what strange people these Melbournians are, they cook their food on a campfire, they live in tents and they drive like bloody maniacs.

Getting onto the Nav. Trial itself, I knew we would lose points for speeding, even before the drivers briefing. Joe Lavery, who incidently organised the event, had Pat and myself entered as the Mad Mob. Who told HIM.? Okay, we'll dazzle them with our clubs brilliant navigating. Well, dazzle was the operative word; Dave and John must have tried to navigate by the sun and realised they were lost, just as it was going down. Still on the subject of going down, (Got your attention now) Ross Lister decided to take the challenge and go through the mud, not around, just to be fatherly of course and teach his son the art of using a Tirfor, which all takes time, so a quick jerk on the snatch-~~em~~ strap once we arrived had Ross motoring again. Ross was now desperate and decided to strip some weight from the vehicle at all costs, so he left his spare wheel behind (complete with carrier).

The first division of the event was mostly "C" grade with one interesting hill called Noonday Mill Tk. which was "B" grade. Gerry spent half an hour towing the eventual winner up this hill and in the process bent the chrome handle on his new Gerryvan. By the way, his wasn't the only jerryvan to spend time on the side of the hill, one of mine managed to eject from its holder on the way up, funny about that, I wasn't speeding I must have hit a small bump (Subaru) maybe, as we were not allowed to hit potholes, they incurred a fifty point penalty even if your headlights were on.

The scenery was as good as always with the Otways and we had a good time counting the river beds and sawmills and fence posts and stones and grass and trees. In case you didn't realise observation played a major role over the course of the weekend, and I challenge anyone to understand Joe Lavery's way of thinking, not even his twin brother Gerry, got the questions correct.

The night section was going to be treacherous. Witches caps marked the bottomless pits which flanked the 75 degree hills we had to drive down. Looked more like Cliff Youngs footprint on the natural curve of the earth; when we got there, and we were first. Gerry decided to show Ross how Dave and John used the sun to navigate, but this was a night run so we didn't see them for a long time. Entertainment was provided on the night run by the mating of a Subaru with a Nissan Patrol. The Subaru tried to backdoor the Nissan, but they were closed and he bent his bar, so a distress call was put over the radio and Patrick and I backtracked to the scene of the crime. I leant down, brushed the cobwebs from the transfer lever, hooked on the strap and gave the old girl the big stick. Well someone should have penalised the Niassan for speeding!!! When the night section was over it was back to the fire for the usual consumption of assorted beverages spiced with a little Rodney Rude and off to bed, So as to be ready for another day of penalties.

Sundays section of the trial was uneventful for all except Ross Lyster who was elated to find out he had lost points for speeding, and immediately demanded proof in writing. Well the placings told the story, VFWD took out the last four positions and showed great restraint and sportsmanship by not throwing Joe in the river.

All in all, and being serious for a moment, it was a good weekend and a big effort on behalf of the Otways Club, So I would like to thank Joe and his Collegges and hope we can reciprocate in the near future.

Dave Heard.
